THE CRAFTSMANSHIP STORY

PURO Humidors employs only the most skilled craftsmen who are dedicated to attention and detail. Each Premier cabinet requires more than 150 hours of handwork to complete, creating an exceptional cabinet every time. This process is never compromised, so the product is always superior. PURO Humidors are simply the finest handcrafted humidors in the world.

FINISH OPTIONS

Manufactured with premium kiln dried woods from around the world, each of our Premier cabinets are specially treated with five coats of hand-rubbed, semi-gloss lacquer finish.

HUMIDITY AND TEMPERATURE CONTROL SYSTEM

PURO Humidors has selected the Habitat Monitor Climate Security System and Melcor refrigeration unit to maintain optimal temperature range for your cigar storage

- All components of the Premier humidor are humidity and temperature controlled
- Automatically operates whenever the humidity falls below the set point of +/- 2% RH or temperature exceeds range
- Digital displays and audible alarms alert if the water supply should become depleted
- * Digital displays and audible alarms alert if the humidity or temperature fall outside the set points
- Each Premier humidor is individually calibrated
- Runs on 110V or 220V

SIZE

48.5" w x 21.25" d x 78.25" h
